## SKILLS

**Languages:** C++, JavaScript, Python, Typescript  
**Frameworks/Libraries:** React.js, Next.js, Express.js, Node.js, Tailwind CSS, GIT  
**Databases:** MongoDB  
**IT Constructs:** Data Structures & Algorithms

## EXPERIENCE

### Excellence Technosoft

Noida, India

Software Development Engineer Intern

Jan 2025 - Present

- Built a to-do application using **Google Sheets API** as the database for seamless task management.
- Developed a Slack bot to automate messaging in channels for enhanced team communication.
- Integrated Clerk authentication to ensure secure user login and registration.
- Refactored components leveraging shadcn for consistent and scalable design patterns.

### Buzzli

Remote

[Link](#)

Backend Engineer Intern

Nov'2024 – Jan 2025

- Designed and deployed 10+ APIs for post creation, scheduling, editing, and history retrieval using **Node.js**, **Express.js**, and **TypeScript**, managing a database with 1000+ users.
- Automated monthly credit renewal and expiration processes, distributed free credits to over 20+ users and sending 1000+ notification emails, leveraging **Azure Cosmos DB**.
- Developed APIs for generating posts from **YouTube videos**, **blogs**, and other sources, and integrated **LinkedIn API** for commenting on user posts.
- Built a system to store and manage 10+ news articles and 20+ posts daily with efficient data handling using **Cosmos DB**.
- Refactored error handling, reducing API failure rates by 20% and improving system reliability.

### NullClass

Remote

[Link](#)

Full Stack Web Developer Intern

Nov'2023 – May 2024

- Partnered with the design team to introduce 15+ visually captivating UI/UX elements using **React.js**, boosting user engagement and retention.
- Implemented **Razorpay payment gateway** for seamless and secure subscription payments, streamlining the payment process and enhancing the user experience.
- Engineered a custom video player with gesture-based controls, significantly enhancing user interaction and boosting average session duration, leveraging **Node.js** and **Express.js** for backend functionality.
- Contributed to scalable and responsive web application development with **MongoDB** for database management.

## PROJECTS

### TheMordernMarket | React.js, Express.js, Node.js, MongoDB

[Link](#)

- Authentication:** Implemented secure user authentication with distinct panels for admin and users.
- Order Tracking System:** Established a comprehensive order tracking system to monitor and manage customer orders efficiently.
- CRUD Operations:** Built robust Create, Read, Update, and Delete (CRUD) operations for products and categories.
- Payment Gateway Integration:** Integrated Braintree Payment gateway to facilitate seamless and secure transactions.
- Product Search and Filtering:** Designed advanced product search and filtering functionalities to enhance user experience.

## EDUCATION

### Bachelor of Technology - Computer Science Engineering

2021-2025

HMR Institute of Technology and Management, GGSIPU, New Delhi

CGPA: 7.77

## Achievements

- Solved **500+** coding problems across various coding platforms.
- Maintained the longest streak of **222** days on LeetCode.
